

Attached is an Excel spreadsheet listing the playing and practice fields for each league in the two districts. The list contains all the fields and their location and latitude and longitude coordinates that we have collected in the last 10 years from the leagues as part of the Districts' Luzerne County 911 project. For the new presidents and those not otherwise familiar with this project we set forth this initiative in 2002. We collected from each league all playing and practice fields and their location/address. Students from Wilkes University GIS program then went and recorded the latitude/longitude or GIS coordinates. Each of these fields was assigned a unique number. This list was then sent to Luz. Co. 911. We designed and distributed plates with those numbers to each league which were to be posted at the corresponding fields. Each league was instructed that in the event of an emergency at a field, as a supplement to the official 911 call procedures set forth by the county, this field location could be given to the dispatcher to help cut the time it takes for emergency personnel to respond to a field emergency. Luzerne County 911 is asking that we update this information. We're asking that you review this list and the fields listed under your league. If you need a number plate let us know and we'll provide one quickly. If there's a field you're using that isn't on the list, let us know, we'll record it and collect the GIS coordinates for it, add it to the list and make up and send out a number plate. If you need a hard copy of this list let us know and we'll mail it out. If there's a field on the list that's not used let us know and we'll take it off. If you have any questions about the procedures of this project, also just let us know. Please take the time to review the official procedures Luzerne County 911 puts out on making a 911 call:

"LUZERNE COUNTY 911 WHAT IS YOUR EMERGENCY?"...

Luzerne County 911 has been in service since June of 1998. Since that time, our dedicated professionals have saved the lives and property of so many people by getting the responders to the location of the incident. To maintain our high standard, we are asking the residents of Luzerne County to please take a few moments to read the way we process a 911 call. Of course we hope you never have to use the 911 system, but in the event that you need to, knowing the exact information we need from you will save valuable time!

1. PHYSICAL LOCATION IS NUMBER 1! - We know you need help and we want to get it you as quickly as possible. So please provide us with the physical location of the incident. The physical location is not always the same as the mailing address. For example, you may have a mailing address of 123 Main Street in Mountaintop, however, the physical address is 123 Main Street in Fairview Township. We need the following:

- a) House # or Apartment # (Business name if applicable)
- b) Street Name
- c) Municipality (name of the town)

If you live in a rural location, please provide the call-taker with directions from the nearest main road to your house.

If the emergency is not occurring in an addressable location (such as on the Interstate) please give us the best location description as possible by including landmarks and/or mile-markers. Also, if your physical address differs from your mailing address, it's a good idea to write it down and post it near your telephone.

That way in an

emergency, your correct address can be read to the 911 telecommunicator.

2. NATURE OF THE INCIDENT - tell us exactly what is happening. For example, if someone is having chest pains, or there is a motor vehicle accident etc. Give us the basic description and include important details, for example, if you are reporting a fight tell us if someone has a weapon. If someone has fallen, tell us approximately how far he or she may have fallen. As long as you give us the location and the basic incident details, we can begin to dispatch the units to that location.

3. DON'T HANG UP...WE AREN'T DONE WITH YOU! Please stay on the line with the telecommunicator until he or she instructs you to hang up! We still need your:

a) NAME

b) TELEPHONE NUMBER (of where you are calling from or can be reached)

c) ADDRESS (if it's the same as the incident location tell us it's the same)

WE DO REALIZE THAT MANY PEOPLE WILL BE UPSET IN AN EMERGENCY SITUATION, BUT DO THE BEST YOU CAN TO REMAIN CALM. THE FASTER WE OBTAIN AND THE MORE ACCURATE YOUR INFORMATION IS, THE FASTER WE CAN DISPATCH THE RESPONDERS!

We hold the safety of the players in the highest regard and we feel this program helps in that way. Again, please contact any PA D-16/31 staff member with any questions.

--
